TO WHOM WHO MAY CONCERN

Dear Gentlemen,

We recommend that you, the company "Smart Solar LTD", registered in Bulgaria, UIC 202051508, at 35 Nikola Vapstarov Blvd., fl 3. Office 3a, Sofia city, Bulgaria, hereinafter referred to as the "Company".

We cooperated with the Company in the design and construction of Solar Power Plants in Ukraine. PV "Slobidka" Khmelnytsky region, Chemerovets district, Slobika-Smotritskaya village, Ukraine. Capacity of the SPP 9,5MW AC/peak, construction work on the station were made from February - June 2019. PV "Babaikovka" Dnepropetrovsk region, Tsarychansky district, village Babaykovka, Ukraine. Capacity of the SPP 7,0MW AC/peak, construction work on the station were made from March - June 2020.

All works were performed at a high professional level using new technologies in the field of solar energy. The company's pricing policy is flexible enough. The offer provided by the Company was much more profitable than competitors in the Solar Power Plant construction market.

We recommend the Company's services for the design and construction of Solar Power Plants. If you have any questions, we will be happy to answer you.

Sincerely,

LLC "SMART ENERDGY UKR" Director
